

SC2-SM SERIES

UNDERWATER LIGHT

DESCRIPTION

The SC2 underwater light provides your vessel 24 watts of intense LED lighting. The SC2's are designed with a sub-compact 2.99" composite or bronze housing for under the waterline surface mounting. Single color and color changing versions available with variable brightness and a wide array of control options.

FEATURES

- Proprietary clear gel-filled design, injected through entire unit — eliminates condensation and/or water intrusion under stress
- Tough, scratch resistant, tempered glass lens with either composite or bronze housing — impervious to acetone, solvents and demanding marine environments
- Transient surge and reverse polarity protection — dramatically prolongs unit life
- Thermal throttling technology — enables safe operation even out of water
- From simple on-off to full-feature lighting effects, unit is enabled for a host of control interfaces

SPECIFICATIONS

- Up to 3,000 lumens
- 120 degree beam angle
- 24 watt power draw
- 2 amps operating current draw @ 12V
- 10-30 volts input
- 2.99" (75.9mm) outside diameter
- IP68 fully submersible waterproof design

INCLUDES

- Lighting unit
- 3' (1m) submersible grade cable
- 3 mounting screws
- 3 year standard warranty

2 CONTROL OPTIONS

1. Power Toggle Control

Quickly toggle power source to advance to next color or brightness level

2. Add Shadow-NET™ Control

Dramatic, full-feature control through your Multifunction Display (MFD) by adding the Shadow-NET™ control module (SCM-LC-PLUS)

Shadow-NET™ Modes

- Unlimited shades of color and fading
- Dimming • Strobe rate • Music sync
- Multiple zones • And much more...

Dramatically enhanced lighting capabilities through your existing MFD
