

BRACKET MOUNT SPREADER LIGHT

# SCM-SLB Series

• 2200 Lumens

## DESCRIPTION

The Shadow-Caster™ Bracket Mount Spreader Light is perfect for illuminating decks and other large areas of your boat or yacht. The bracket mount version is great to retrofit existing installations. The Shadow-Caster™ Spreader Light has a unique reflector design which spreads the light beams out to reduce glare. It is available in 3 color output options: single color white, 3 color (white, blue and red) as well as well as a full color version with Shadow-NET™ interface. The brightness and color can be controlled with a standard switch.

## FEATURES

- Soft start technology ramps the brightness up gently over 2 seconds
- Power toggle feature to set brightness and change color
- True white LED for best color performance
- High efficiency switch mode power supply
- Waterproof aluminum housing
- Unique reflector design to reduce glare

## 2 CONTROL OPTIONS

### 1. Power Toggle Control

Toggle power source to set brightness or advance to next color

### 2. Add Shadow-NET™ CC Control

Dramatic, full-feature control through your Multifunction Display (MFD) by adding the Light Commander Shadow-NET™ control module (SCM-LC-PLUS) and app

### Shadow-NET™ Modes

- Unlimited shades of color and fading
- Dimming
- Strobe rate
- Music sync
- Multiple zones
- And much more... Dramatically enhanced lighting capabilities through your existing MFD

## SPECIFICATIONS

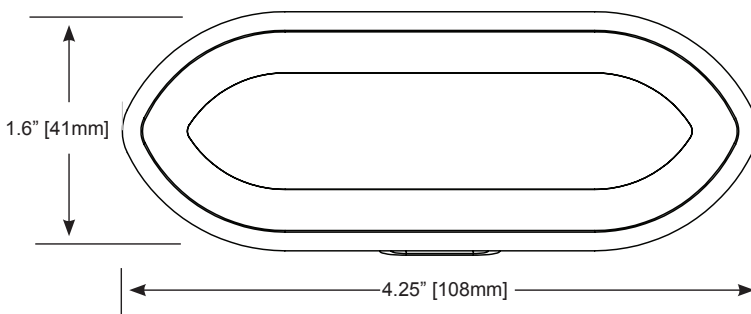

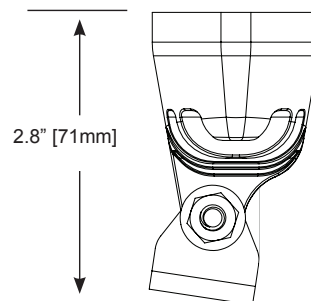

- 2200 lumens output
- 60 degree beam angle
- 24 watt power draw
- 10-30 volts input
- Current draw: 2 amps at 12 volts, 1 amp at 24 volts
