

UNDERWATER LED LIGHT

SABRE SERIES

10,000 LUMENS • 72W • RGBW

**DESCRIPTION**

Introducing Sabre, a next-generation underwater light combining a sleek, low-profile oblong design with advanced LED technology for exceptional brightness and efficiency. A precision bronze housing with bright polished finish and durable borosilicate glass window deliver a premium appearance built for the marine environment.

Advanced RGBW LEDs with dedicated true-white output provide brilliant white illumination and vibrant full-color capability, while a highly efficient power supply maximizes light output while minimizing energy consumption. Sabre operates stand-alone from a switch or integrates seamlessly with Shadow-NET® for complete control and MFD integration.

Next-generation brightness. Premium design. Exceptional efficiency.

FEATURES

- Low-profile sleek design featuring brightly polished bronze housing.
- Flexible mounting options.
- Shadow-NET enabled.
- IP68 fully-submersible design.
- Tempered Borosilicate Glass windows.

SPECIFICATIONS

- Up to 10,000 lumens.
- 120° beam angle horizontally; 80° vertical.
- RGBW design (true Cool White channel for optimal brightness).
- Power draw: 72 Watts; 6A at 12V, 3.1A at 24V.
- Input Voltage: 10-30 Volts.
- 7" (180mm) length; 2.4" (61mm) width; 0.6in (15.9mm) height.
- 6ft of submersible-grade cable.

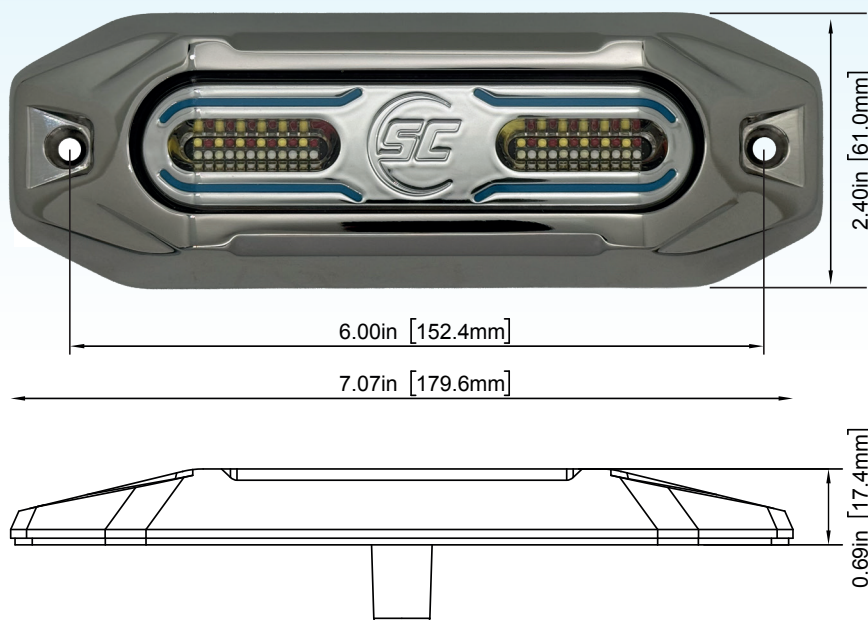

CONTROL OPTIONS

1: Power Toggle Control for multicolor lights. Quickly toggle your power source to change colors or rotate through lighting modes.

2: Shadow-NET™. Enjoy dramatic, full-feature control directly through your Multifunction Display (MFD) by adding the Shadow-NET™ control module (Light Commander Control) and app (supported on Color-Changing RGBW models).

10,000
LUMENS

**INCLUDES**

- Lighting unit
- Submersible-grade cable
- Mounting hardware
- Standard 3-Year Warranty
